(Data Analyst)

[Click here](#) to view

- Created Live Covid -19 dashboard using Power Bi which shows total cases, Death and recovery rate and state wise cases.

## ACADEMIC PROJECTS

2020

### Fitness Plus -Android App

- The App calculate the BMI of a person, provide nutritional information about the food items and also track the calorie intake.

2018

### Water Level Indicator–Embedded system

- The simple water level indicator is very useful to indicate water tanks is full.

Abdul Qayyum Kadri

- When water touches the sensor we get the beep sound from the buzzer and the red led glows.
- Indicating that the water in the tank is full and immediately we have to close the valve to avoid wastage of water.
